

# San Domenico School

## Health Services

Dear Parents,

All parents who volunteer in the classroom or drive on field trips are required under California law to provide the school with documentation of a negative TB skin test, done within the past four years, **before** volunteering in the classrooms or driving as part of our Parent Aide Program.

If you have current documentation of a negative test result, please send a copy to:

San Domenico School  
Health Services  
1500 Butterfield Road  
San Anselmo, CA. 94960

Or have your physician fax it to: 258-1951 (this is a secure fax destination)

If you need to have a test done there are several options:

- Contact your physician to schedule one and have the results forwarded to the school
- Contact the Marin County Health Department for hours: 473-4400
- Contact Health Services at San Domenico School @ 258-1950 to schedule an appointment. Testing will be done at school by appointment during the first week of school in August of each year

\*Please note that wherever you get the test administered, you are required to return 48-72 hours later to have your injection site assessed or you will not be signed off by the MD/RN.

Thank you,

Lee Ann Reinhard, RN  
Director of Health Services
